

What's the Problem?

Directions: Think of reasons to reduce the funding of NASA and write them on the *inside* of the earth. Pick those that encourage the funding of NASA and write them *outside* of the earth. A few sample statements are provided for you, and you can also think of your own!

- NASA projects waste money
- Most of space is still uncharted territory
- Humans are naturally curious about space
- NASA invents new products
- Someday humans may need to leave the earth
- Other countries could “take over” space
- Aliens might get angry
- Earth is losing its resources
- NASA increases jobs in the US
- Space travel is dangerous
- Our money should be spent on feeding the poor
- Science is cool

Increase Spending on NASA
