What are the key elements of Problem-Based Learning?

Key Elements of Problem-Based Learning:

Students focus on content that is relevant to them in real-world scenarios

Knowledge, skills, and information integrates across multiple subjects

Key Elements of Problem-Based Learning:

Students demonstrate 21st Century Skills
(collaborating, researching, communicating, etc.)

The teacher serves as the mediator, and students are in charge of managing, planning, and executing the task

Key Elements of Problem-Based Learning:

Instead of a single answer, students consider multiple points-of-view, and search for evidence to support their views

Students respond in a variety of ways, creating "products" that go beyond writing an answer to a single question
