

# ONLINE TESTING (CHEAT SHEET)

1

Access to Content:

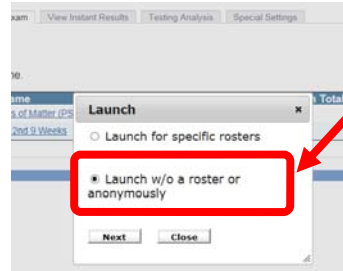

Sharing Features:

**\*\*Here is a good place to find exams already created for you!**

**Open an exam, and click on the "Launch as an Online Assessment" link**

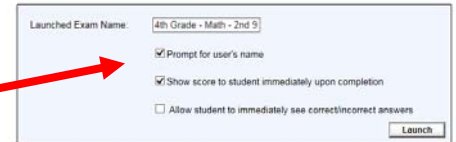

2

**If you are launching for the first time, click to "launch w/o a roster"**

**\*\*\*Your school or district can import students via Powerschool, in which case you will choose the top option.**

**You will be able to choose various options for what the students see.**

**And you will be given a URL where students can go take the online test.**

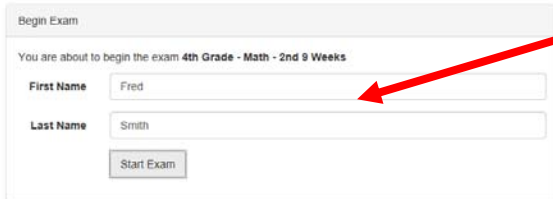

**\*\*\*We can set it up so that students go to the same URL every time to take their exams, such as district.gotomyexam.com**

Your exam has been launched!

**Student URL: <http://gotomyexam.com/go/126483>**

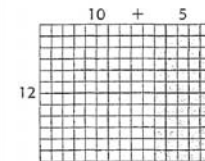

[Click Here](#) to view the live results.

3

**Students will go to the appropriate URL, sign in, and begin taking the exam**

**\*\*\*if student rosters have been imported via PowerSchool, the sign-in procedure will have students always go to the same URL and enter a unique password**

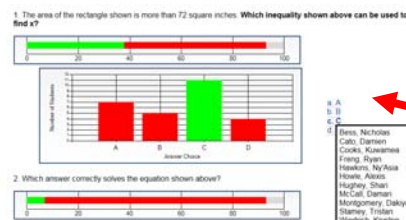

All used the model to multiply  $12 \times 15$ . What is the product?

- A.  $120 + 70 = 190$
- B.  $120 + 60 = 180$
- C.  $100 + 60 = 160$
- D.  $100 + 50 = 150$

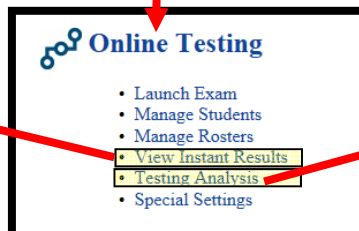

4

**On your "Teacher Toolbox Resources" page, you'll see an "Online Testing" block (top right).**

**"View Instant Results" will allow you to see results as they come in from the online testing.**

**"Testing Analysis" will allow you to run a wide range of reports and do standard analysis.**
