

# STEM CHALLENGE

Science | Technology | Engineering | Math

Name: \_\_\_\_\_ Date: \_\_\_\_\_

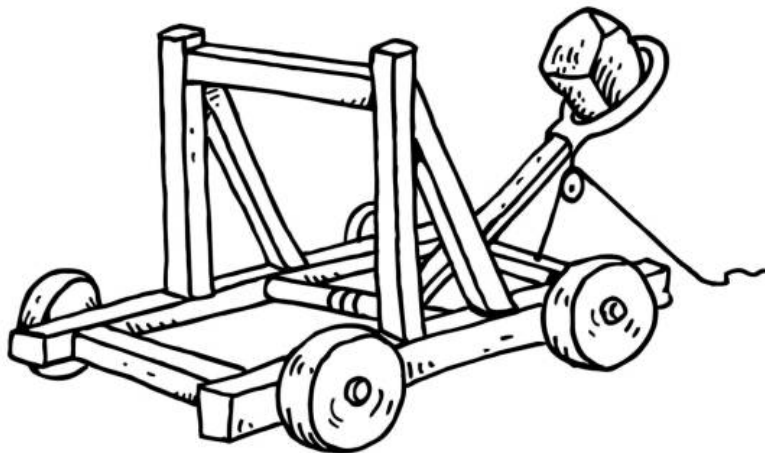

## Today's Challenge: **Candy Catapult**

*You must create a catapult that flings candy to nearby trick-or-treaters.*

*Design and build a Halloween-themed catapult using classroom materials to launch candy into a target area. Your catapult should be both spooky and effective.*

*For this challenge, you can only use the following materials:*

- variety of "classroom construction" items  
(rubber bands, popsicle sticks, tape, etc.)
- small paper or plastic cups
- candies (or other things to launch)
- markers/things to decorate your catapult
- spoons

# DESIGN PAGE:

*Explain your approach to this challenge  
and draw a diagram:*
